## Future Farmers Plant Their Beans

Profits netted from the chapter's farming project will go toward the purchase of cows for the building of a herd of registered Hereford cattle. The chapter also plans to sell the small herd of scrub cattle it now owns and put the returns from this sale also into Hereford cattle. It is starting its purebred herd with a registered Hereford bull and two heifers and plans to buy seven more Hereford cows, four with calves and one already bred, in the near future.

### Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

The County Commission this week leveled a blast at groups seeking to promote expanded joint civilian-military use of Palm Beach Airbase lest their action result in suspension of Airforce operations at the field.

The commission some time ago petitioned the Airforce to make the West Palm Beach field a permanent base and were notified by Sen. Spessard Holland that the Airforce said the field didn't meet requirements because of objections to noise of aircraft; because of conflict with civilian aviation and proximity of industry to the base.

The Airforce recently announced that it was considering closing the base because of these reasons.

The commission Monday, through

Lake Lytal, its spokesman, called on "certain committees in West Palm Beach . . . to quit pestering the Air Force . . . and withdraw the requests they have made recently."

Though not mentioned at the special commission meeting Monday, among the most active groups for expended joint use of the field, has been the aviation division of the Resources Development Board. Lytal said that the county's primary interest was to keep the field here and that any changes to the original operating agreement between the county and the Airforce would be made only if the Airforce felt that it could do so.

Recent requests for changes at the field, Lytal said, are not agreeable to the Airforce.

He explained as to the objection about noise that the commission only recently received resolutions from every town in the county except two, and in all instances the communities favored a permanent status for the field. The town of Golfview did not favor the field because of aircraft noise.

About conflicting use of the field, the commission said that when the original lease was signed, the base was turned over to the Air Force with no strings attached and that subsequent agreements had been worked out for use of the base by commercial airlines operating regularly scheduled flights.

"In this connection," Lytal said, "certain committees in West Palm Beach have been in correspondence with certain Generals and other people asking about greater use of the field by private aircraft, which we know is undesirable and not agreeable to the Air Force." The commission said requests have been made for additional land, certain facilities and other concessions for private aircraft.

"We have determined once and for all that the Air Force is the best judge of whether they are going to allow civilian aircraft on the base and I don't think it's right for these committees to keep writing up there."

"The proximity of industry," Lytal said, "has to do with this committee writing to Washington to open up the field on the south side. It is a renewal of a request to put back an industry that was there before the field was activated."

Lytal said there was some confusion about the industry angle since none exists there now and the situation is being clouded by the committee request to open up the field.

Commissioner Roy Michael said that in 1951 every member of the county board was in Washington seeking reactivation of the base on the basis that the base be run by the Air Force.

"I don't think the opinion of any board member—at least my own—has changed since that time," Michael said.

"The more people keep harpooning the Air Force into trying to do things that are not in the lease agreement, the more danger there is of losing the base," Commissioner Kenneth Foster declared.

Commission Chairman Ben Sunday said "We gave it to the Airforce with no strings attached four years ago and it should be kept that way."

Commissioner Paul Rardin asked that a committee be named to act for the commission in the controversy and that the commission members plus the county engineer, attorney and any others, be authorized to go to Washington if needed, to keep the base in its present operation.

Meeting with the commission Monday was a Chamber of Commerce delegation who presented a resolution adopted by the group's directors, calling on Florida's congressional delegation to do everything possible to keep the base here on its present status.

### Cinematic Chatter

By Malcolm Miller

Hello everybody! Anne Francis, ash-blond, blue-eyed, breath-taking jewel is in her tender twenties but she had more than twenty years of experience before the cameras, microphone and footlights. She made her camera debut at six months, posing for calendar photographs. She was a magazine cover girl and fashion model at five, she was a radio star at seven and at 13 was the first child actress to have her own TV program. At 15 she was signed for her first Hollywood film contract. All of which adds up to the fact that Anne has more than great beauty. She has talent to spare. But her talent is not limited to the acting field. Professionals rate Anne's mezzo-soprano voice as superb. She started studying piano at the age of six and today can play well enough to make a living at it if necessary. She paints with the ease and assurance of a master and her home is filled with interesting examples of her water colors. She works in ceramics for relaxation. She writes poetry and short stories for her own amusement. Anne made her screen bow at 15 in a Mickey Rooney film but returned to New York for stage work before being brought back to Hollywood a few years later. Her climb to the top has not been rapid but steady. See you at the movies Mal.

### Glades Scouters In Meet Last Thursday

The Glades District of the Gulf Stream Council, Boy Scouts of America, made plans to observe the 45th anniversary of the Boy Scouts of America during Boy Scout Week, Feb. 6-12, at a meeting in Pahokee Thursday night of last week with District Chairman Brown of Clewiston presiding. The meeting was held at the home of Ed Carver, scoutmaster of Pahokee Boy Scout Troop 28, instead of in the high school building as originally scheduled.

Highlight of the Boy Scout Week observance in the Glades area will be an all-day campfire to be held in the vacant lot back of the Belle Glade postoffice Saturday, Feb. 5, with all district scout units invited to participate. The scouts will give demonstrations of camp cooking for both the noon and evening meals at the campfire. Following the evening meal the scene of activities will be switched to the Belle Glade high school auditorium for a Glades District Court of Honor starting at 7:30.

The district's publicity committee was given materials and instructions relating to the publicity for the Boy Scout Week observance and Camporee to encourage Glades residents to demonstrate their support of the Boy Scout movement by attending the camporee, the court of honor and other activities during Boy Scout Week.

Following the business session Leroy Hight of West Palm Beach field executive of the Gulf Stream Council, led the district officials and scout leaders in a roundtable discussion of scouting.

### Gets Same Number 3 Years In Row

ST. PETERSBURG—A. F. Bendus, who has been driving the same Dodge for 20 years, is amazed at the coincidence that has occurred three years running when he bought his license tag.

In 1953 he was issued license 4Q-251. In 1954 when Bendus applied at the license window he was given 4Q-251. Last week he went to the Pinellas County license tag headquarters for his new plate. He was given No. 4Q-251.

### A Pretty "Snappy" Menu

Cuff Taylor had a near riot in his hen yard last week. Seems the hens were scratching around the cold ground when they found a piece of rubber band frozen in the ice.

"One hen pecked at it," says Cuff, "and it snapped right back. She backed off clucking while another hen tried it, and another. And the 'worm' kept right on snapping back. They all got their feathers ruffled. You never heard such a ruckus!"

"I finally had to break up the ice with an ax before those hens

would get back to business and start laying eggs again."

From where I sit, some people raise a pretty big fuss over nothing, too. Take the fellow who would deny me a temperate glass of beer with my game of checkers. Maybe he'd rather have coffee! Well, that's all right. He has a right to his own preference. But so do I. And there's no point in his "snapping" at me just because his choice isn't the same as mine.

*Uncle Sam made the bonds you own  
an even better bargain!*

# Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,850.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

**If you want to be paid  
your interest as current income—  
invest in 3% Series H**

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

## Davie Is Planning Its Orange Festival

DAVIE—Rolling on towards its 12th annual Orange Festival and Rodeo, the Davie Chamber of Commerce contemplates that the 1955 edition will be by far the greatest spectacle this organization has yet staged for the event.

President Frank Huss pointed out today: "This festival represents the only occasion now being observed in Broward county which approaches a real county fair. Our program for this 12th annual Orange Festival and Rodeo has been planned to include all of the many and varied agricultural exhibits, from sod grass to cork, with the finest bred cattle, citrus fruit, vegetables, flowers, plants and any number of other products which are grown in the Davie area."

## GIRLS AUXILIARY

## Bill Proposes Aid For Sugar Growers

WASHINGTON — Sugar cane growers of Florida may get some relief in the quota problem if a bill proposed by Sen. Allen H. Ellender, Iowa (Dem.) gets favorable action.

Ellender indicated he expects to present a bill this month giving mainland-United States sugar producers at least half of the annual quota increases that presently go to Cuba.

Senators Spessard L. Holland and George A. Smathers will co-sponsor the measure as will Sen. Russell B. Long of Louisiana.

Sugar consumption in the United States is estimated to be increasing by about 125,000 tons annually.

Instead of giving this entire added quota to Cuba, Ellender would allot it to mainland U. S. producers to help the mainland sugar industry.

Although Florida sugar growers have not increased their plantings, the better farming methods practiced have enabled them to raise considerably more sugar than they are allowed to market under the present quota system.

## WHICH ONE DO YOU WANT?

*you can have your dream house—this easy way!*

A dream? Not at all. Thousands of people with modest incomes have been able to save the down payment, or the whole price, of the home of their dreams—because they invested in U. S. Savings Bonds on the Payroll Savings Plan. Look at the chart on this page. See how you can accumulate enough money for the down payment on a home. Or enough for your children's college education or a retirement income. *And by saving only a few dollars a week, too.*

The answer is that you save *systematically* on the Payroll Savings Plan. All you have to do is tell your pay office how much you've decided to save each payday (it can be as little as a couple of dollars). After that your money is saved *for* you, *before* you get your salary. Then each time enough has accumulated, it is invested in a Bond, and the Bond turned over to you.

And remember—your U. S. Savings Bonds now will bring you an average of 3% interest, compounded semiannually; *for 19 years and 8 months.* That's why the money you put into Bonds now *grows* to such a surprisingly big sum.

Why don't you start—today? Sign, where you work, for the Payroll Savings Plan. Or, if you're self-employed, have your banker enroll you in the Bond-A-Month Plan. It's as easy as the Payroll Savings Plan.

### *How you can reach your savings goal on the systematic Payroll Savings Plan*

	If you want approximately		
	\$5,000	\$10,000	\$25,000
Each week for 9 years and 8 months, save...	\$8.80	\$18.75	\$45.00
Each week for 19 years and 8 months, save...	\$3.75	\$7.50	\$18.75

This chart shows only a few typical examples of savings goals and how to reach them through Payroll Savings. You can save any sum you wish, from a couple of dollars a payday up to as much as you want. The important thing is, start your Plan today!

## Christian Science Group Of Canal Point

God's readiness and willingness to heal sickness and sin today, as He did in Christ Jesus' time, will be set forth at Christian Science services this Sunday.

Scriptural selections in the Lesson-Sermon entitled "Truth" will include the account of the successful healing missions of Jesus' disciples, as recorded in Luke's Gospel (Chapters 9, 10).

The ever-availability of the Christ, Truth will be brought out in readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, including the following (142:31): "Truth is God's remedy for error of every kind, and Truth destroys only what is untrue. Hence the fact that, to-day, as yesterday, Christ casts out evils and heals the sick."

The Golden Text is from Psalm (57:3): "God shall send forth his mercy and his truth."

Mr. and Mrs. C. C. Lemmons are building a new concrete-block home at 903 East Main St., Pahokee, on the lot next to the residence of Mr. and Mrs. E. A. Jensen. Mr. Lemmons, who operates a fleet of vegetable transport trucks, has his summer headquarters at Greenville, N. C.

## Defense is your job, too!

**THIS IS A DAY OF DREAMS COME TRUE...** for the returning Korean War veterans pressing against the ship's rail and for their loved ones waiting on the dock. The counted days of waiting are over. The nightmare of war is behind them. These boys have seen far across the seas doing a hard, dirty, bloody job... a job of defense—for you.

But defense is your job, too. It is our job to help make America's economy as strong and dependable as these men have made her military power. And your job can be not only easy but rewarding—in financial security for you and your family. Just buy U.S. Defense Bonds. Buy them now and buy them regularly. For your bonds and other forms of saving can make America strong. And in this warring world, *strength is America's surest guarantee of peace.*

So sign up for bonds today—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank. For your security and your country's, too, buy United States Defense Bonds regularly!

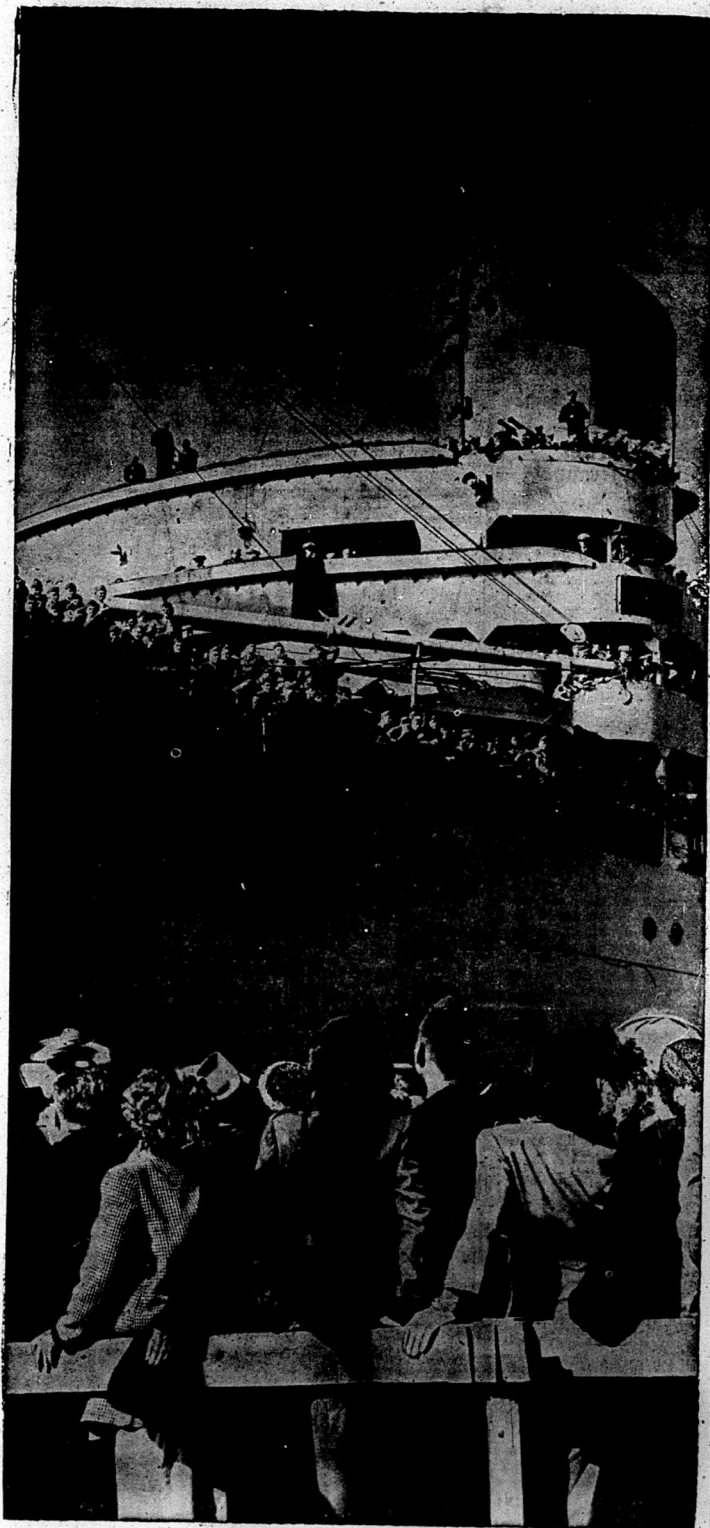

### The U. S. Defense Bonds you buy give you personal financial independence

Don't forget that bonds are now a better buy than ever. Because now *every Series E Bond you own* can automatically go on earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not just \$25—but as much as \$33.33! A \$37.50 bond pays \$66.66. And so on. For your security, and your country's too, buy U. S. Defense Bonds now! Bankers recommend them as one of the safest forms of investment.
